

# Replacing LED unit Flowerpot VP9

---

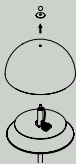

### Step 1

To release the shade unscrew the dimmer knob in the top.

### Step 2

Remove the dimmer knob, logo ring and shade.

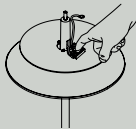

### Step 3

Unscrew the nut from the thread allowing the wire to be detached.

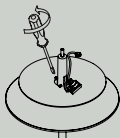

### Step 4

Push down on the two buttons to release and pull out the wires coming from the pole of the lamp.

## Step 5

Unscrew the three screws attaching the LED unit.

## Step 6

Take off the LED unit and replace it with a new &Tradition 3W dimmable LED unit.
