## Description:

Let your cat reach stylish new heights with the beautiful Alto Wall Climber. Designed exclusively for MiaCara by the renowned Danish design studio Hans Thyge & Co, Alto is inspired by the latest trends in Scandinavian design.

More cat parents are choosing to keep their feline friends indoors. This creates the need for spaces where your cat can exercise its natural behaviours, including climbing, scratching and watching over its territory. Modern living spaces, especially in apartments, do not allow for bulky pieces of cat furniture, so our team of designers have worked to cleverly combine multiple functions in one stylish object, which fits seamlessly into your home.

The Alto Wall Climber gives your cat endless opportunities for play, rest and sleep. This wall-mounted cat tree combines a number of functions in one stylish object — a cat tree, cat scratcher, a bed for your feline friend, and contemporary storage space for you. The wooden frame is fitted soft cushions and scratch panels, as well as shelves to store books, decorative objects or your cat's belongings.

The Alto Wall Climber is completely customisable and adjustable, with the option to add separate modules, like cushions, scratch panels, and cat shelves, to suit your home and your cat(s). The modules can be mounted at any desired height for a personalised climbing path. For large walls or multi-cat households, an extension set maximises the size of the shelf to allow your cat even more space to explore.

Both the frame and modules are made of natural oak wood to blend seamlessly with the colour scheme of any home.

Design: Hans Thyge & Co

Hemp

Anthracite

## Material:

- Body: Solid oak wood
- Platforms: Oak veneer
- Scratch panel: Design felt, 100% Polyamid

## Care Instructions:

### Body:

If necessary, wipe wooden body with a damp cloth.

### Scratch panel:

Use the brush of a vacuum cleaner to clean the design felt. Please do not use water or any liquid detergents.

Cushion cover: 60° C

The cover is machine washable at 60° C or can be dry cleaned. After washing, please let the cover air dry on a rack, and do not put it in the dryer. If needed, iron the fabric only at the lowest level (synthetic).

The fabric is easy to clean and very durable. Please brush off dirt and dust regularly, before it can penetrate deeper into the fabric, and remove stains immediately. For simple and uncomplicated cleaning in between, simply vacuum the surface of the cover with an upholstery brush.
