
The Muse in Solid Brass

An extension of the successful portable lamp range, The Muse in Solid Brass celebrates the beauty of raw materials.

Weighty and proud, the new Solid Brass version references the signature brass finish found in other Tala fixtures and is built to stand the test of time.

Special Edition: The Muse in Solid Brass

tala.

- Good design can help mitigate climate change
- Research led approach – we combine Technology, Sustainability and Design
- The light bulb as the protagonist

The Muse – an indoor-outdoor light

tala.

- IP44 rated - built for the British outdoors
- No stress at the beach or picnic
- Outdoor entertaining
- Al fresco dining
- Glamping and camping
- Außenbeleuchtung
- Interior reading light

The Muse – responsible, repairable design

- Tala celebrates the right to repair movement
- Replaceable Tala Bulb and battery pack.
- The Muse Portable LED light is constructed from premium materials and can be built to be repaired over time
- Borosilicate glass, aluminium shell + brass hardware and detailing

Sadly, most battery powered portable lamps are constructed from plastic and will end up in landfill once the LED or Lithium-ion cells degrade.

The Muse is aimed at solving this reality

Thank you
