

Fiber Lounge Armchair Swivel Base

“One of the most difficult and noble disciplines of design is to create simple, well-functioning and almost ordinary objects that nevertheless have a strong identity. We designed the Fiber Lounge Soft Armchair to do just that. The chair’s sculptural language, paired with its wide and ultra soft seat, refuses to compromise on comfort and invites the user to be seated for hours on end. Through soft vating and upholstery, the Fiber Soft Armchair enhances the idea of grand comfort. The chair’s inner shell is made using recycled plastic for a conscious and innovative perspective on materials.”

— Iskos-Berlin

Designed by	Iskos-Berlin
About the Designer	Iskos-Berlin is a Copenhagen-based design duo that has made international headlines within furniture, industrial and graphic design. The studio, formerly known as Komplot Design has collaborated with some of the world’s most prestigious manufacturers and their furniture, lighting and other design products are exhibited at numerous design museums around the world including MoMA and the Designmuseum Denmark.
Environment	Indoor
Country of Production	Poland
Preassembled	Yes.
Description	The Fiber Lounge Armchair features a generously spacious seat and embracing curves that embody the Fiber Series's elegance in a softer, more inviting form. The chair's shell is made from 100% recycled plastic, supported by a powder-coated aluminum swivel base.
Material	<p>The shell is made using 100% recycled plastic mixed with strength-improving additives. The recycled plastic comes from post-consumer waste. Fully upholstered in textile, imitation leather, or leather.</p> <p>Base: 4-star swivel base in powder-coated aluminum is made using a minimum of 95% recycled cast aluminum. The recycled cast aluminum comes from a mix of post-industrial and post-consumer waste. Aluminum's malleability makes it a grand fit for highly detailed, durable Muuto products, bringing a light, airy feel to robust designs—a steel swivel cylinder.</p>

Fiber Lounge Armchair Swivel Base

Cleaning & Care

Textile: We generally recommend removing non-greasy stains for textile upholstered versions by carefully dabbing with a lint-free cloth or sponge wrung out in clean, warm water. Clean by dabbing it with soapy water and making it with a little dish soap if necessary. Finally, dab the surface with clean water. We highly recommend that you go to kvadrat.dk for further cleaning and maintenance instructions for your chosen textile, as the cleaning methods may vary from one textile to another.

Imitation Leather: Clean with lukewarm, pH-neutral, soapy water and a soft cloth or brush. Do not use solvents or chemical cleaners; alcohol-based cleaners can be used. Finally, wipe with a damp cloth afterward.

Leather: As a natural material, leather requires looking after. Caring for the leather correctly will make it even more beautiful.

Refine, Easy, and Endure Leather: Clean leather regularly with a dry cloth. Treat the leather at least four times a year using only special leather treatment products. Visit ca-mo.com for further information on cleaning leather.
