Floor lamps

The Diana lamp is slender, sturdy and well-defined. Inspired by the table models, these floor lamps, Diana and Diana Mayor, retain the grace and definition that characterises the whole family. The lamp is balanced by a wide metal base, completed with a slightly conical white linen shade. Two bulbs are arranged such as to provide lighting without creating shadows. The Diana effortlessly combines a classic air with a modern design, both at home and at the office.

In keeping with the calling of their designers, all floor and table versions of the Diana series have a timeless quality.
