Co Dining Chair, Plastic

BY NORM ARCHITECTS & ELS VAN HOOREBEECK

Developed with The Office Group and Norm Architects, this multi-functional Co Dining Chair features a recycled plastic form utilized for the seat, back and armrests. Sourced within Europe, the material is recycled to reduce waste and the production of new plastic. The durable, matte-finish material works in concert with the Co Dining Chair's sleek steel or chrome frame. The form is distinguished by a wide and strategically-angled backrest to allow freedom of movement and provide maximum comfort, whilst the robust frame casts an intriguing silhouette. Optional armrests further elevate a sense of comfort and allow the chair to be suspended off the ground for easy cleaning.

The Co Dining Chair plastic is not an outdoor chair.
