FLAMING NEW PRODUCT FROM EVA SOLO

Nothing is cosier than gathering around a bonfire with its beautiful flames and intense heat, and with the new and decorative FireGlobe fireplace from Eva Solo, it is easy and safe to light a fire directly on the patio or elsewhere in the garden. The matt black cast iron beautifully sets off the flickering golden flames, and the fireplace creates the perfect mood and warming heat when it starts to feel cool outside.

FireGlobe is almost sculptural with its hemispherical shape that cleverly protects the fire from the wind – while also matching the Eva Solo range of stylish outdoor products. FireGlobe is not just for cool spring evenings and the summer – it is also intended as a decorative and warming element in the autumn and winter.

FireGlobe does not have to sit in the same place all the time, but is easy to move around the garden or patio thanks to the hole in the top which acts as a handle. A loose grate in the bottom of the globe ensures adequate ventilation, while the three legs keep the fire place sufficiently high above the ground to prevent scorching of the grass or paving stones. Smart Danish design.

Eva Solo FireGlobe

- Height: 75 cm
- Diameter: 64 cm
- Matt black enamelled cast iron and stainless steel
- Price: EUR 299.00
