

# Raise Glasses Set of 2

“It was focal to us that the Raise Carafe & Glass brought a subtle yet characterful ethos to the traditional craft of mouth-blown glass, adding a lightly elegant sentiment in daily life. After working through different ideas and sketches, we were inspired by the generic shapes of bottles and glasses in modernist still life paintings and felt that their silhouettes struck the balance of being at once timeless yet bursting with character. In essence, the Raise Carafe & Glass find their identity through their organic lines, encouraging the pieces to be raised when with friends, family and in everyday life.”

<b>Description</b>	With their shapes inspired by modernist still life paintings yet interpreted in contemporary shapes and colors, the Raise Glasses have an inviting expression that encourages interaction when in use. With the slight raise of its foot, the glass has an elegant look while hinting its user to raise the glass up to a toast when with friends and family. Use the different colors together for a unique and playful table setting.
<b>Material</b>	Mouth-blown clear or colored glass.  The traditional mouth-blown production makes each glass unique with small deviations in color, thickness, shape and surface.
<b>Cleaning &amp; Care</b>	To care for and prolong the life of the Raise Carafe & Glass, we recommend hand-wash as this is the gentlest way of cleaning them. The Raise Carafe & Glass are dishwasher safe, but over time, this will tear on the glass clearness which can be avoided by washing them in hand.  Not suitable for hot beverages or dishwasher program above 55c.  Due to the glassware's handmade nature that leads to varying weight and thickness of each piece, we do not recommend stacking more than two glasses on top of each other.
