Description:

Cast from a durable, high-quality porcelain, the Piatto and Fresco cat bowls add a sophisticated look to your kitchen. The bowls are great on their own, or as a set for food and drink.

The Piatto plate is perfect for both dry and wet food. The shallow bowl is not only whisker-friendly and suitable for flat-faced cats, but also designed to slow rapid eating.

The Fresco water bowl is a natural match for any modern home. The sleek design comes in a slightly darker hue than the food plate to create a harmonious contrast.

Designed by Dutch designer Regina Mol, Piatto and Fresco are a prime example of timeless design. With three muted colours to choose from, there is no doubt that you and your cat will love these bowls.

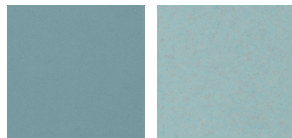

Design: Regina Mol
